ATS 7363

Flameproof Indoor Loud Speaker

A Square Technosolutions, leading manufacturer, sales and service provider in industrial communication field presents **Flameproof Indoor Loud Speaker** with better features at competitive price.

ATS 7363

Flameproof Indoor Loud Speaker

Product Information

It is made of special aluminum alloy casting machined to high accuracies ensuring the required flame path to comply with IS 2148-2004 standard. The unit can be connected to direct amplifier output (8 Ohms) or to 100V/70 V line through line matching trafo.

Technical Specifications

- Rated wattage: 6 watts
- Rated voltage: 11 Volts
- Rated SPL at 1 khz, 1 mtr , 86 db
- Effective freq response: 500Hz to 11 Kz
- Dimension : 200 mm x 270 mm

Climatic

- Temperature class : T6
- Relative humidity: 95 %

Material

- Flameproof unit cast Aluminium LM6
- Mounting bracket : Provided
- Colour : Powder coated Orange
- Weight : 6.5 Kg
- Termination : 2 double compression glands

Standards & Certifications

- IS/ IEC 60079-0:2004
Safety standard as is applicable for industrial products.
Safety of operator against electrical shocks ensured.
- IS/IEC 60079-1:2007 Flameproofness for gas group II B zone 1 & 2.
- CMRI Certificate Number :
CIMFR/TC/P/H 186 dated. 4/10/2017

Note: Actual unit may be different than the photograph shown.

We also deal in industrial paging systems, Fire alarm system, Industrial weatherproof flameproof telephone.
